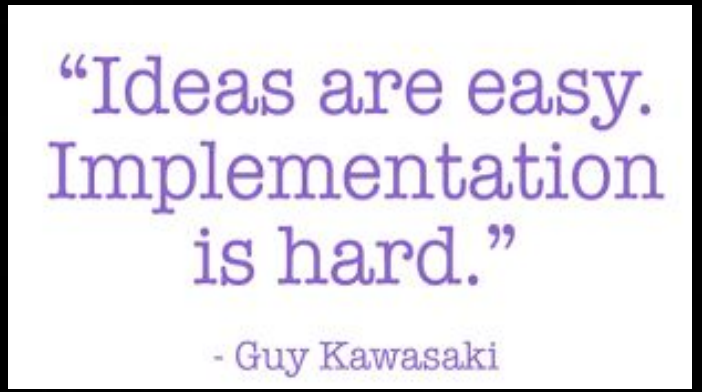
OUR IDEA

Our idea is to create a web app or a mobile application that will allow the users to stay up to date with modern technologies, innovation and discovery whether it is for development , automation, AI, Data Analysis fields or some space technologies. This website is fully customizable blog portfolio to showcase your technical knowledge as well as technical content writing skills. One can simply share their profile link as a portfolio for free.



Future implementations

- **To develop techy inshorts into :**

  fully customizable blog portfolio website.

  Where user can showcase their technical knowledge as well as technical writing skills.

  User can simply share the link of his profile as a personal portfolio.

Lets see final look

Engage with nerds

Learn about new technology

Write a blogpost

Share your experience

Stay up-to-date with
